Leveraging ACT Academy's resources as a dynamic tool in your blended learning classroom

ACT Academy™

Find the best resources from top publishers, all in one place and accurately aligned to standards. This personalized learning platform provides resources for students that are unique to their learning gaps. While you're looking through the resources, here are a few things instructors will see that are unique to ACT Academy:

- ACT Academy is a collection of videos, games, and interactives from all the best publishers online. This includes resources from Flocabulary, NASA, Crash Course, GeoGebra, PBS, and tens of thousands of others!
- ACT Academy's resources are curated and vetted for quality, alignment, grade and subject appropriateness.
- Based off student performance on diagnostics, ACT Academy presents scaffolded content that is tailored to each student's areas of need.
- Most videos are followed by a short formative assessment to gauge student understanding.
- Each search on ACT Academy is returned in order of efficacy—this ensures that you get the best resources first.

Ready to get started?

1. Go to act.org/academy and sign up as a teacher. Make sure to tell us your grade and subject!

2. On the top, you will see a Roster tab. From here, you can invite your students to join your class in a variety of ways, including one click roster syncs with Google Classroom and Canvas.

3. Click on the resource you like and you'll see the Assign to Students button. Here, you can assign this resource to your whole class, multiple classes at once, or individual students.

4. As your students complete their assignments, you will see their results under the Mastery Chart tab. From there, you can also determine if a student has watched the assigned videos.

5. Click on each student and assignment for more insight. On the right, you'll also see ACT Academy's hand picked videos for each question and you can assign these videos for individualized, targeted practice.

6. Next, click on a class average for an assessment or HW to see the % of students that got each question right, and the hand picked remediation videos for each question. If you click on "Assign" for these videos, you'll see that only the students that got that question wrong are pre-filtered to receive that video as an assignment.
