

# ACT® WORKKEYS® ASSESSMENTS can work for you

"I took my ACT WorkKeys tests before I even got hired. I was Gold certified. I think it made employers notice me. It's a good test that shows your capability in certain areas, and I think it really helps a company determine which employees have a skill set needed to hire for the optimal position."

Whether you're thinking about the next phase of your education, launching a new career, or making a transition in your current job, ACT® WorkKeys® Assessments are an important first step to prepare. WorkKeys scores help identify how your skills compare to the requirements of a job.

WorkKeys Assessment questions reflect real-world work scenarios. That's why employers nationwide rely on these assessments to hire, train, and promote the most qualified candidates. The ACT® WorkKeys® National Career Readiness Certificate® (NCRC®) is awarded on the basis of an individual's WorkKeys scores and is the most widely used employability credential in the country.

ACT WorkKeys Assessments evaluate both hard and soft skills, which:

- · Determine your skills levels achieved
- · Identify areas for improvement
- Match skills levels to specific job requirements
- Demonstrate to employers that you have the skills needed for workplace success

Based on data from more than 22,000 job profiles, ACT has identified three foundational skills that are essential to success in most jobs. These three core skill assessments also form the basis for earning the WorkKeys NCRC:

- Applied Math
- · Graphic Literacy
- · Workplace Documents

### **UNDERSTANDING** YOUR ACT WORKKEYS ASSESSMENT SCORES

After taking the assessments, you will receive a score report. Your score is determined by the number of questions answered correctly. **There is no penalty for guessing.** If you take the WorkKeys Assessments

on a computer, you will receive an Individual Score Report. This report documents your skill level for each assessment taken and describes the tasks associated with each skill level.

#### **ACT WORKKEYS SCORE REPORTS**

Your report may be slightly different from those shown here, depending on how and where you took the test, but all of the essential elements are the same.

- 1 **TEST** is the name of the WorkKeys Assessment you took.
- 2 **LEVEL SCORE** is the score you earned on this assessment and is often used in hiring and advancement decisions.
- 3 POSSIBLE RANGE shows the lowest and highest possible Level Score and Scale Score for an assessment, so you can see how well you did compared to the minimum and maximum possible scores on this test. In this example, the range is from Level 3 through Level 7 and 65 through 90.
- 4 SCALE SCORE is used primarily for training purposes to track growth.

  Scale scores are not used in hiring or advancement decisions.
- 5 WHAT YOUR SCORES MEAN gives you information about the skills you demonstrated on this assessment.

#### MAKING THE MOST OF YOUR ACT WORKKEYS SCORES

If you already have a job in mind, compare your Level Scores to those needed for your target job. Let's compare the sample report with the scores needed for the occupation shown below.

Job Title	Applied	Graphic	Workplace
	Math	Literacy	Documents
Accountant/ Auditor	5	5	5

In this example, the job requires a score of Level 5 for Graphic Literacy. The sample report shows a score of Level 6. Therefore, this individual has the foundational skills for this job.

#### GIVE YOURSELE THE WORKKEYS NCRC ADVANTAGE

Documenting your skills with the WorkKeys NCRC gives you an advantage in launching or advancing your career. The WorkKeys NCRC is awarded at four tiers and is based on the lowest level score of each of the three core assessments, **Applied Math, Graphic Literacy, and Workplace Documents**. If your lowest level score is 3 then you qualify for Bronze, 4 qualifies you for Silver, 5 for Gold,

and 6 for Platinum. You must score a 3 or higher on each core assessment to qualify for a certificate. Although it is one of the criteria employers use when hiring and promoting, it is not a substitute for meeting other job requirements.
