DESCRIPTION

Turbo Elementary jumpstarts student success by equipping students with foundational SEL tools that enhance learning, classroom behavior, and students' belief in their own academic skills.

Packed full of teacher-driven lessons, videos, discussion guides, and more, Turbo Elementary activates student agency, strengthens growth mindsets, and encourages the development of age-appropriate coping mechanisms.

Across 6 units per grade, students learn how to wield powerful, grade-appropriate SEL tools across situations and contexts. Upon completion, students are empowered with the skills they need to excel in a classroom setting, build balanced relationships with peers, and effectively express their feelings in challenging situations.

OTHER BENEFITS

Featuring flexible implementation models, reading extensions, and presentations, each of Turbo Elementary's comprehensive, teacher-driven lessons requires approximately 30-45 minutes of class time. Lessons can be taught consecutively, or spread across the school
