

How to Verify Your Submissions in PearsonAccess^{next}

Verify Manage Participation

1. Log in to PearsonAccess^{next}.
2. Choose the **Setup** icon, then **Organizations**.
 - *If you have multiple schools in your district:* From the drop-down on the **Search** button, select **Show all results** to see a list of all schools.
3. Check the box next to the school(s) you want to verify.
4. From the drop-down on the **Start** button, select **Test Administration**.

Result: This is the **Manage Participation** screen.

Note: If you selected only one school at Step 3, your organization should show automatically on the Manage Participation screen. If you selected more than one school, choose each school from the list on the left to verify each individually.

- ➔ If all fields under either section on the Manage Participation screen (**Participating** or **Not Participating**) contain values, you have completed this required task.
- ➔ If all fields on the Manage Participation screen are blank, your participation data has not yet been submitted.

*Note: To submit new (or change existing) participation data, fill in the appropriate blanks and select **Save**. A green **Changes saved** message will appear when data is successfully submitted.*

Verify Student Data Upload

District Test Coordinator

1. Log in to PearsonAccess^{next}.
2. Choose the **Setup** icon, then **Students**.
3. From the drop-down on the **Search** button, select **Show all results**.

Result: All existing uploaded data for individual students is displayed.

*Note: For districts with multiple schools, more detailed, by-school student upload data can be viewed by choosing the **Setup** icon, then **Import/Export**.*
