

# TOGETHER, WE CAN MAKE STUDENTS **UNSTOPPABLE**

Like you, we're dedicated to the success of every student—today, tomorrow, and well into the future. ACT is about more than just a test. We offer products and services that open doors, build confidence, and unleash the potential of your students. Assessment, done right, is about creating a more holistic view of students so that together, we can help our young people make the most of their potential.

**“One child was told they weren’t a candidate for college. After a year of Aspire, they’d improved tremendously. I brought the parent in and showed them a score saying their child could go to college.”**

— Debbie Hampton, Testing Supervisor, Maryville Christian School, TN

Research shows that early intervention in helping students meet educational standards increases a student’s chances to stay on track and be prepared for college and career. ACT® Aspire® is the first digital, longitudinal assessment system to fully connect student performance with readiness benchmarks from the elementary grades through early high school.

[act.org/aspire](https://act.org/aspire)

Gaining clear, accurate understanding of existing student skills and strengths is essential in order to target interventions. Highly effective Social and Emotional Learning (SEL) skill-building efforts depend on reliable assessment. ACT Tessera is an all-in-one, multifaceted solution that gives students, parents, teachers, and schools a comprehensive view of SEL.

**“Tessera allowed us to automate the measurement of life skills while empowering the students to take responsibility for their own development. The reports facilitated conversations about skills like collaboration, empathy, responsibility and perseverance; thus helping our student and parent community focus on all aspects of education.”**

— Monisha M. Gupta, Senior Director of Curriculum and Instruction  
Stratford School, CA

PreACT® 8/9 is the first step toward practicing for the ACT® test. This multiple-choice assessment gives 8th- and 9th-grade students an early measure of College and Career Readiness while reducing test anxiety and providing performance predictions. With PreACT 8/9, your students can have an earlier indication of success and a starting point on the path to college.

[act.org/preact8-9](https://act.org/preact8-9)

**“We try to instill in the students that this is a learning experience with Aspire and PreACT. If you’re in a sport on the JV team, you’re preparing for that big game or to play varsity. This is going to make you more confident, so when you take the real ACT, it will be old hat. You know you’ll be able to do a lot better.”**

— Principal Dr. Vince Powell, Affton High School, MO

Administered in grade 10, PreACT gives students practice with taking the ACT. Educators can use insights from PreACT report data to have earlier, more informed conversations with students about topics such as course selection, career plans, postsecondary options, and potential scholarships.

**“We’re trying to make this a whole approach where schools, students, and parents are all aligned to giving our students the best grades possible on their ACT.”**

—Michael Menth, Teacher, Cedar Mountain High School

An engaging, interactive test prep program that provides an online, interactive program to help students prepare for the ACT test. The program features questions from previous tests in all four subject areas (English, math, reading, and science). High-quality learning content includes lessons, practice questions, interactive gaming modules, and flash cards, available on mobile devices with internet so students can practice for the ACT test at home or on the go.

**“Standards are meaningless until you define how to assess them. Therefore, assessments are the starting point.”**

— Dr. Jorge Peña, Former Director of School Improvement and Catholic School Accreditation, Archdiocese of Chicago

What does it mean to be “career ready”? While there is no single answer to that question, almost every answer includes a core set of academic skills in Applied Math, Workplace Documents, and Graphic Literacy. ACT WorkKeys helps individuals demonstrate their job readiness while enabling communities, educators, and employers to build a skilled workforce in a rapidly changing environment.

[act.org/workkeys](http://act.org/workkeys)

**“If we really care about kids, what we want are better results on the tests that are going to get them into college and college scholarships. When we say we value the ACT results and we’re going to take assessments once a year to find out where your kids are moving towards that college and career readiness benchmark, parents say that’s a value they can get behind.”**

— Declan FitzPatrick, Executive Director of Curriculum and Instruction, Fox C-6 School District, MO

For many students, attending college and going on to fulfilling careers is part of a lifelong plan. The ACT test is an essential part of making those plans possible.

As the leading US college admissions test, ACT scores are accepted by every 4-year college and university and provide students with access to millions of dollars in scholarships. For educators, these test results provide you with the data to position students for success after high school.
