## National Collegiate Retention and Persistence to Degree Rates

Since 1983, ACT has collected a comprehensive database of first- to second-year retention rates and persistence to degree rates. These rates provide national benchmarks for institution type and level of selectivity. Data are compiled by ACT from the ACT Institutional Data Questionnaire, an annual online survey of information collected from two-year and four-year postsecondary institutions.

#### **Important Information About These Tables**

- Cohort description: First-time/full-time students who were first enrolled at a postsecondary institution in fall 2012.
- Retention rate: Percent of first-time/full-time students who first enrolled in fall 2012 and were also enrolled in fall 2013 at the same institution.
- Persistence to degree rate: Percent of students completing a degree within a designated timeframe at the same institution. The tables in this document are based on the year in which a particular cohort enrolled as first-time/full-time degree-seeking students, as illustrated below.
